

Fuel Education has an expansive course catalog that covers all core subjects, world languages, and electives.

FuelEd Online Courses allow you to meet each student at his or her point of need—from those who are struggling or at risk of dropping out or not graduating on time to those seeking greater academic challenges or wanting to enrich their learning. FuelEd Online Courses are ideal for blended online learning programs.

The widely adopted FuelEd curriculum for middle school and high school has been crafted based on extensive education research. It features:

- A rich multimedia format with interactive elements that help keep students engaged and motivated to learn. Whiteboard illustrations, manipulatives, practice games, and videos provide students opportunities to use visual, kinesthetic, and auditory learning methods.
- Interactive tutorials that help illustrate complex concepts more clearly.
- Unique FuelEd avatars that help establish a connection between topics and “real world” applications.
- Courses designed to align with state and national standards.

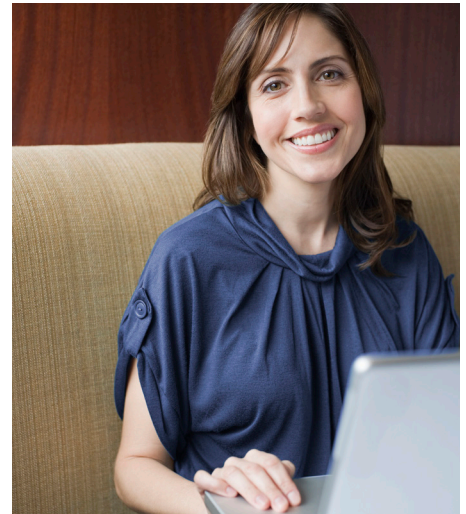

Fuel Education has delivered millions of online courses—more than any other K-12 curriculum provider—over the past decade.

Our flexible pricing allows you to address your specific student enrollment situation—whether it’s predictable or variable, concentrated in a few subjects or across a broad range of courses. We offer more than 200 self-paced courses, including:

- English, math, science, and history/social studies for grades 6–12
- 3 academic levels for high school: Foundations, Standard, and AP®
- 5 world languages for middle school
- 6 world languages for high school
- 16 middle school electives
- More than 50 career-building electives
- More than 45 STEM courses
- 19 credit recovery courses

With the FuelEd Online Courses, you will receive:

- Formative and summative assessments that provide ample practice with feedback before students take exams.
- Foundations courses that include audio, English Language Learner (ELL)

What are your challenges?

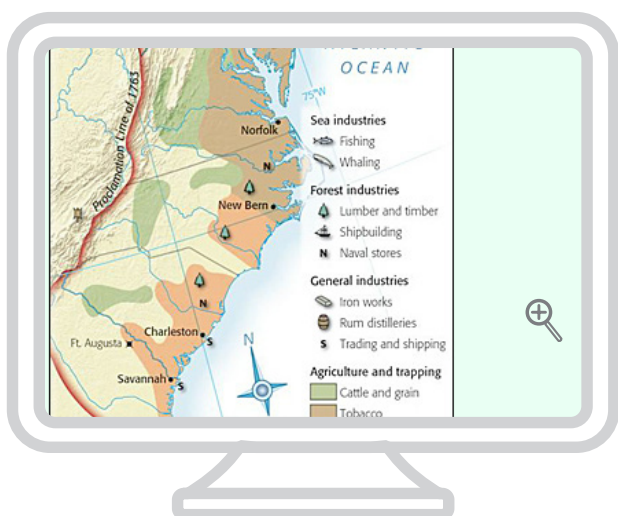

- Improve student performance
- Provide individualized learning
- Boost graduation rates
- Provide more opportunities for advanced learners
- Increase state standardized test scores
- Support differentiated instruction
- Increase world language opportunities
- Provide career and technical education
- Offer summer school options
- Ensure college readiness
- Address overcrowded classrooms
- Provide scheduling flexibility
- Expand course offerings affordably
- Retain students

Whatever challenges your district is facing, FuelEd has the experience and expertise to create a cost-effective online education program to help you meet them head on—and attain results.

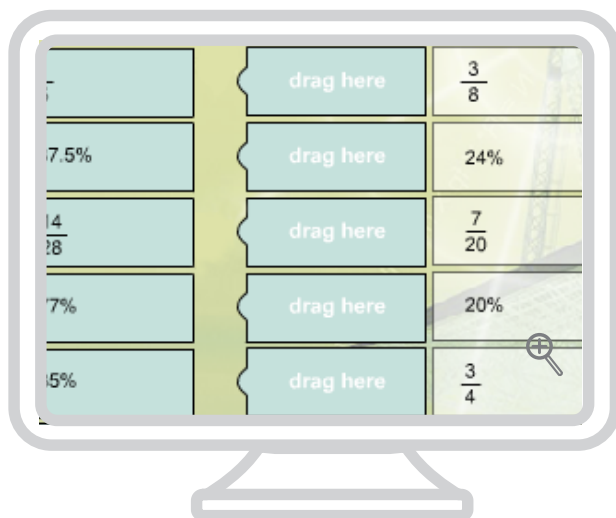

support, vocabulary lists, tutorials, and games to support students struggling to fill academic gaps.

- Credit recovery courses that allow students to test out of topics previously mastered, enabling them to focus on the more difficult concepts they missed the first time around.
- A Personalized Learning Platform that enables teachers to tap into a variety of content sources to customize courses—including some of the most highly rated web-based educational content providers—and organizes it so it is quickly searchable. This makes it easy for teachers in both traditional and blended classrooms to customize courses or lessons with additional content to support key teaching objectives set by the Common Core State Standards and other state and national standards.

FuelEd Online Courses feature a rich multimedia format with interactive elements that help educators meet each student's individual needs.

Maps, charts, and other visual aids provide support for textual information, and opportunities for students to apply literacy skills like map-reading and interpreting symbols.

Interactive games allow students to practice and apply what they are learning. The feedback lets students know which skills they have or have not mastered before moving on to a graded assessment.

FuelEd Online Courses include more than 50 career-building electives that are designed to engage and motivate today's teenagers. These electives foster career exploration and are aligned with Career Technical Education (CTE) programs. Electives include:

Criminology

Students study crime from psychological, biological, and sociological perspectives. They also explore the categories and social consequences of crime, and how the criminal justice system handles criminals and misdeeds.

Law and Order / Legal Studies

This course examines the creation and application of laws in society. By understanding the workings of our court system, as well as how laws are actually carried out, students become more informed and responsible citizens.

International Business

This course helps students understand how economic, social, cultural, political, and legal factors influence both domestic and cross-border business. Business structures, global entrepreneurship, business management, marketing, and the challenges of managing international organizations are explored.

Great Minds in Science

Students learn about ten of today's greatest scientific minds. Each unit takes an in-depth look at one of these individuals, and shows how their ideas may help to shape tomorrow's world.

Veterinary Science

This course looks at the pets that live in our homes, the livestock on our farms, and animals in zoos and wildlife sanctuaries. Students learn about the prevention and treatment of diseases and other health issues.

You can use our teachers, or we can train yours

Our teachers are extensively trained “power users” of FuelEd curriculum and technology. They are available to help you quickly fill a temporary position or provide a permanent online teaching solution. Our teachers will provide your students with high-quality instruction and support through online classroom settings, one-to-one feedback, and individualized assistance by phone, chat, and e-mail.

With more than 900 state-certified teachers, we can fill gaps in teaching staff for:

- Low enrollment courses
- Specialty electives
- Courses with teachers in short supply (e.g., AP Economics or Japanese)
- Sabbaticals or long-term absences

If you choose to use our teachers, you will receive quality instruction accredited by AdvancED™. We'll also provide support for onsite mentors, so they can more effectively assist students with online course-taking.

FuelEd has successfully trained more than 5,000 teachers through our comprehensive training program.

We can also train your teachers on FuelEd curriculum. This is a great opportunity for your teachers to expand their skill set—and potentially earn continuing education credits! We provide options for startup training for teachers who are new to the curriculum as well as ongoing professional development for all of our full-time online programs. For new teacher training, you can choose the format that works best for you: online asynchronous, online synchronous, or onsite training. Ongoing professional development is available in a synchronous online format. Throughout the year, your teachers also have access to open office hours to ask experienced FuelEd teachers questions about instruction, tools, and more.

FuelEd Online Courses can be hosted on virtually all major learning management systems.

FuelEd Online Courses are optimally delivered through PEAK, an intelligent management center built on an open platform that enables districts to manage and personalize all of their online learning programs in one place.

Courses can be hosted on virtually all major learning management systems, including Blackboard™, Moodle™, eCollege®, Desire2Learn®, and BrainHoney™. You can maintain the relationship with a hosting provider on your end, or FuelEd can host your courses for you.

Fuel Education partners with schools and districts to fuel personalized learning and transform the education experience inside and outside the classroom.

We provide innovative solutions for pre-K through 12th grade that empower districts to implement and grow successful online and blended learning programs. Our open, easy-to-use Personalized Learning Platform simplifies administration and enables teachers to customize courses using their own content, FuelEd content, third-party partner content, as well as open educational resources. We offer the industry's largest catalog of flexible digital curriculum, certified instruction, professional development, and educational services tailored to district and student needs. FuelEd has helped more than 2,000 school districts to improve student outcomes, better serve diverse student populations, and expand educational opportunities by leveraging the new power of technology-enabled learning.
